Executive summary

I am a self-learned developer. Motivated and detail-oriented BCA graduate with hands-on experience in Python, Java, JavaScript, web development, databases, and AI/ML concepts. Experienced in developing web-based applications and AI-powered projects, with practical exposure to Python, HTML, CSS, JavaScript and MySQL. Completed an AI & ML internship and frontend development training, gaining practical experience in software development, data handling, and project implementation. Seeking an entry-level opportunity to contribute technical skills while continuously learning and growing as a software developer.

Technical skills

- **Development Areas**– Web Development, Backend Development, AI Applications
- **Tools & Platforms** - Git, GitHub.
- **Programming Languages**: JavaScript, Java, Python.
- **Web Technologies**: HTML, CSS.
- **Database**: SQL, MySQL
- **AI & Machine Learning**: Python, AI/ML Fundamentals

Experience and projects

Ensemble AI — Full Stack AI Chatbot Project

[DEMO](#) | [GITHUB](#)

- Developed a full-stack AI chatbot integrating Gemini, Groq, and OpenRouter through a unified interface.
- Built the backend using Python and FastAPI with API integration, error handling, and secure .env configuration.
- Designed a responsive frontend using HTML, CSS, and JavaScript for desktop and mobile users.
- Implemented AI provider fallback and handling for API errors, rate limits, and quota issues.
- Deployed the application on Render for public access and production use.
- Used AI-assisted development tools to improve development efficiency, debugging, and optimization.

Soft skills

- **Leadership** – Guiding and motivating others toward a common goal.
- **Teamwork & Collaboration** – Working well with others to achieve goals.
- Problem Solving.
- Excellent in **Time Management**.

Education & Achievements

- Third-Year BCA Student.
- Java Developer, [Certificate](#).
